

**REMARKS**

In the examiner's amendment accompanying the Notice of Allowability dated April 5, 2007, the preamble of claim 9 was amended to recite a computer readable medium. By way of this Amendment, dependent claims 10-16 are being amended so that their preambles are consistent with the change that was made to parent claim 9.

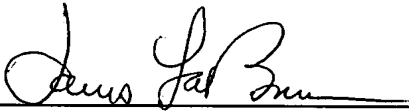

It is respectfully submitted that these amendments do not raise any new issues that require further search or consideration, and do not substantively alter the scope of the allowed subject matter. Rather, they are directed to matters of form, to provide consistency among the claims. Entry of the Amendment is submitted to be proper, and is respectfully requested.

Respectfully submitted,

BUCHANAN INGERSOLL & ROONEY PC

Date: April 20, 2007
